Application Story

Instantaneous Information within Your Reach (PPC-S153T)

Singapore's WOW (Wireless Online World) chose the PPC-S153T for its advertising point in supermarkets to synchronously link the inventory management system to the server through wireless data exchange. Besides providing vivid audio-video imaging, the PPCS153T combines an attractive aesthetic design with super slim form factor.

Product Launch

New PPC-174T Panel Computer Combines Multimedia Power, Flexibility and Reliability

Advantech Co. Ltd., today released the PPC-174T, an Intel® Pentium® 4 processor-based Panel PC with a large 17" LCD display. The powerful P4 CPU/845GV chipset/17" LCD combination brings the most dynamic applications to life, without sacrificing the rugged, industrial-proven reliability Advantech is known for. The PPC-174T has multiple expansion capability for flexible integration into solutions or stand-alone application support.

Powerful, UltraSlim™ Intel® Pentium®4 Processor-M Solution Panel PC

Advantech Co. Ltd., announces the release of its latest Panel-PC. PPC-S154T is a full-featured, flexible all-in-one Panel-PC that combines workstation high performance computing in an ultra slim design that can be integrated into an interactive solution or operate as stand-alone application. It comes with an Intel® Pentium® 4 Processor-M CPU with Speedstep® technology up to 2.2GHz, and system memory that can support up to 1 GB DDR SDRAM, which provides plenty of power for demanding intensive multi media applications.
